

INTEROFFICE MEMORANDUM

TO: Rob Zuber

FROM: Clayton Wein

DATE: 1/6/2022

SUBJECT: Deserado Mine, C-1981-018
Technical Revision No. 73 Request for Assistance

Rob,

I would like to request your assistance with the review of surface hydrology for the Deserado Mine's Technical Revision No. 73. The revision proposes the addition of a new mine dewatering system to the permit. The operator has submitted design specifications and SEDCAD designs for the new dewatering system. The proposed materials relevant to the revision are in Laserfiche located under tr73. Map 164, Map 164A and Map 147 show the location and dimensions of the pond. Illustration 61 includes all of the SEDCAD designs. I would like to aim for sending out the Adequacy Review by the end of the day January 28, 2022. If you need additional time to review the proposed materials, more time can be used. Feel free to contact me if you have if you have any questions or concerns.

Thank you,
Clayton
