RE: Oakbrush Hill Gravel, Application No. M-2021-064, Determination of 112 Construction Materials Reclamation Permit Application as "Complex"

Dear Mr. Valenzuela:

On October 29, 2021 the Division of Reclamation, Mining and Safety (Division) received your 112 Construction Materials Reclamation Permit Application for the Oakbrush Hill Gravel Pit. An administrative review of the submitted material determined that the application was complete and was considered filed on December 1, 2021. The Decision Date for your application was set for March 1, 2022.

The Public Comment Period for the application closed on Friday January 21, 2022. At the close of the Public Comment Period several objections were filed. Therefore, based on the number of objections received, Division Staff has determined the Application to be considered complex, is extending the decision due date by an additional sixty (60) days, pursuant to Rule 1.4.1(7).

The decision date for the application with the "complex" extension is **Friday, April 29, 2022**, unless an extension of that deadline is requested by the operator. The Division is reviewing the technical aspects your application to determine whether it is adequate to meet the requirements of the Act. We will contact you if additional information is needed.

If you have any questions, please contact me at the Division's Grand Junction Field Office, by phone at 303-866-3567 Ext. 8187 or by email at lucas.west@state.co.us.

Sincerely,

Lucas West
Environmental Protection Specialist
Division of Reclamation, Mining and Safety
