Re: New Elk Mine
Permit C-1981-012
TR-76

Dear Mr. Ebert

Please find electronically attached an application for TR-76 for New Elk Mine (Permit C-1981-012). TR-76 changes a section of an existing light use road to a haul road. This revision also adds culvert C90 to **Table 21** of the PAP and supporting information for the culver sizing to **Exhibit 19-Sediment Design Specifications and West Portal Drainage Plan**.

Attached is the updated Map 11 Sheets 1 and 4, Map 13, updated page 30 of section 2.05 (Table 21), and support information to go in Exhibit 19.

Also, attached is a draft MOU and figure that New Elk is awaiting final signature from Colorado Department of Parks and Wildlife (DPW). This MOU contains verbiage that proves the proposed haul road enters a public way, as defined in the Code of Colorado Regulations:

Please call or email if there are any questions or concerns.

Sincerely,

Nick Mason
Engineering Technician
