Re: Keenesburg Mine (Permit No. C-1981-028)
Review of 2021 Pond Inspections (All Four Quarters)

Dear Mr. Moline:

The Division received your Pond Inspection Reports for 2021. I reviewed these four reports in the context of the Regulations of the Colorado Mined Land Reclamation Board for Coal Mining, in particular Rule 4.05.9(17). The reports are generally in compliance with these regulations. No problems were identified with the two ponds at the Keenesburg Mine, and this is in agreement with Division inspections in 2021.
