RE: Lamar Pit, Permit No. M-1987-079, Approval of Technical Revision No. 3 (TR-03)

Mr. Ary:

On February 17, 2022, the Division of Reclamation, Mining and Safety (Division) approved the Technical Revision application (TR-03) filed with our Office on December 9, 2021, addressing the following:

Provide updated mining plan maps, reclamation plan, and reclamation plan map to include completely backfilling mine phases 1 and 2 for reclamation.

The terms of TR-03 approved by the Division are hereby incorporated into Permit No. M-1987-079. All other conditions and requirements of Permit No. M-1987-079 remain in full force and effect.

In its review of TR-03, the Division determined the required financial warranty for the site to be in the amount of \$275,122.00, which is \$227,072.00 more than the currently held amount of \$48,050.00 (bond estimate was provided with Division's February 15, 2022 Adequacy Review No. 4 letter). A notice of surety increase will be mailed to you separately from this letter for the amount above. You will have 60 days from the date of the notice to post the additional required financial warranty.
