Re: United/Norwood Pit, Permit No. M-1988-037, Notice of Complaint

Mr. Burkey,

On Wednesday February 16, 2022 the Division of Reclamation, Mining and Safety (Division) received a citizen complaint regarding possible groundwater contamination. The complaint alleges the contamination of the privately owned well is a result of the nearby gravel operations including the United Pit, Permit No. M-1988-037 and the Norwood Pit, Permit No. M-1981-154. The complaint included analytic sample results (enclosed) performed by Green Analytical in Durango, CO.

Please review the enclosed water quality information, prepare and submit a response, in writing, to the Division to address these allegations. If you have questions or concerns, please contact me.

Sincerely,

Dustin Czapla Environmental Protection Specialist Division of Reclamation, Mining and Safety Phone: (303) 866-3567, ext. 8188 dustin.czapla@state.co.us

09 February 2022

Mary Ann Gaston Gaston, Mary Ann 1280 CR 442 N Norwood, CO 81423 RE: Pkg 1

Enclosed are the results of analyses for samples received by the laboratory on 02/01/22 12:50. The data to follow was performed, in whole or in part, by Green Analytical Laboratories. Any data that was performed by a subcontract laboratory is included within the GAL report, or with an additional report attached.

If you need any further assistance, please feel free to contact me.

Sincerely,

Deblie Zufett

Debbie Zufelt Reports Manager

All accredited analytes contained in this report are denoted by an asterisk (*). For a complete list of accredited analytes please do not hesitate to contact us via any of the contact information contained in this report. All of our certifications can be viewed at http://greenanalytical.com/certifications/

Green Analytical Laboratories is NELAP accredited through the Texas Commission on Environmental Quality. Accreditation applies to drinking water and non-potable water matrices for trace metals and a variety of inorganic parameters. Green Analytical Laboratories is also accredited through the Colorado Department of Public Health and Environment and EPA region 8 for trace metals, Cyanide, Fluoride, Nitrate, and Nitrite in drinking water. TNI Certificate Number: T104704514-22-13

Our affiliate laboratory, Cardinal Laboratories, is also NELAP accredited through the Texas Commission on Environmental Quality for a variety of organic constituents in drinking water, non-potable water and solid matrices. Cardinal is also accredited for regulated VOCs, TTHM, and HAA-5 in drinking water through the Colorado Department of Public Health and Environment and EPA region 8. TNI Certificate Number: T104704398-21-14
