Re: Pit No. 2, Permit M-1983-106, Corrective Actions from November 2021 Inspection

Dear, Ms. Brossman:

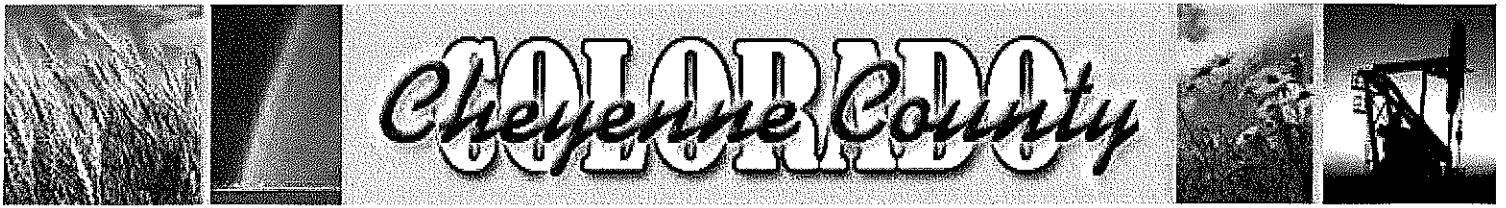

During my inspection of Pit No. 2 in November, I identified two problems that required corrective actions by Cheyenne County staff. I am extending the decision due date for the seeding action to 31 May 2022. The due date for the corrective action related to the markers is still 28 February 2022.

If you or Victor Gibbs have any comments or questions, please contact me at Rob.Zuber@state.co.us or by calling (720) 601-2276.

Thank you,

Robert D. Zuber, P.E.

Re: Pit No. 2 (M-1983-106) Inspection Report

Dear Mr. Zuber,

We are continuing to correct the actions from your inspection report for the aforementioned pit location. You had requested in your report that we needed to submit to DRMS proof of replacing the boundary markers in the correct location(s) and also seed stockpiles by January 7, 2022, which you extended until February 28, 2022. We are requesting an extension deadline date of May 31, 2022 since we are still working on the seeding process as weather allows us. We are willing to send periodic pictures of the process showing the progress if that is something you would we do.

Should you have any questions or concerns, you may contact me at the phone number, email address or address listed above. Thank you for your time regarding this request.

Sincerely,

Marcy L. Brossman
Cheyenne County Administrator
