RE: 32.5 Road Gravel Pit, Permit No. M-2009-035, Mineral Program Inspection Report

Dear Mrs. Yeldell:

M.A. Concrete Construction, Inc. is requesting a time extension to respond to the letter dated December 22, 2021 regarding the Hydrologic Balance. I have sent over the attached information that I can find, but this information doesn't clarify the question at hand. I have talked to the engineer that submitted the permit on our behalf and he has recommended to have a water attorney look into the matter. I have sent this information to a water attorney and am waiting on a reply. We intend to have this resolved by May 1, 2022.

Sincerely,

Andy Azcarraga  
Project Manager
