RE: 32.5 Road Gravel Pit, Permit No. M-2009-035, Proposed Bond Calculation

Dear Mrs. Yeldell:

M.A. Concrete Construction, Inc. is requesting a time extension to respond to the letter dated December 22, 2021. We are questioning the need to increase the bond amount and therefore are doing our due diligence to demonstrate accurate dimensions of reclamation still needed on the project. Some measurements of sloping can't be done with winter conditions. We are also discussing with the property owner the possibility of amending some of the reclamation plan. We intend to have these measurements and amendments submitted by March 31, 2022.

Sincerely,

Andy Azcarraga
Project Manager
