**RE: Permit No. M-2009-035, 32.5 Road Gravel Pit, Proposed Bond Calculation- Extension Request
Approval**

Dear Mr. Azcarraga:

On December 22, 2021 the Colorado Division of Reclamation Mining and Safety (Division) updated its reclamation cost estimate for the above mentioned site. The estimate, including changes made from previous calculations, was provided for M.A. Concrete Construction, Inc. to review and provide feedback. The Division requested that feedback on this calculation be received by February 28, 2022 otherwise an increase in the noticed amount would follow. On February 28, 2022 the Division received an extension request to allow for more time to obtain accurate dimensions which can't be done with winter conditions.

Your extension request is approved for an additional 30 days. Required corrective action documentation is due by March 31, 2022.

If you require additional information, or have questions or concerns, please feel free to contact me.
