Question and concern re: Wattenberg Mine

Hays - DNR, Peter <peter.hays@state.co.us>
To: Neil Whitmer <neil.whitmer@lafargeholcim.com>

Fri, Mar 18, 2022 at 9:24 AM

Neil,

Please see the attached email from Sherie Gould regarding the Wattenberg Lakes site.

It does appear a small area of land has been disturb by mining activities northwest of WCR 23 3/4, northeast of Phase 2 / Pond 1 and southeast of Phase 3 / Pond 3. The area appears to be included in the Baurer Pit permit boundary, but not the Wattenberg Lakes permit boundary. See the attached Google Earth maps.

I would like to perform an inspection of the Wattenberg Lakes site on Thursday March 24, 2022 at 11:30am. Do you think you could have the property and permit boundaries in the area surveyed by then?

Please let me know. Thank you.

Peter S. Hays
