Re: Decision Date Extension Request, Motocross Borrow Pit 111 Application, M2022-006.

Dear Mr. Hays,

We request a 30-day extension from our decision date (March 24, 2022) for the Motocross Borrow Pit 111 permit application. The extension request will allow us the time needed to notify and provide Weld County Clerk and Recorder of our response to History Colorado. It should also allow us time to address any other items which may come up during the requested extension period. We understand we may receive approval prior to the new decision date if all items are addressed prior to the new decision date.

We appreciate your help.

Respectfully,

H. Bruce Humphries
