Re: Roadside Portals (Permit No. C-1981-041) Technical Revision No. 71 (TR-71) TR71 requests change in the permit boundary, exd. (HC #67596)

Dear Mr. Wein:

We received your correspondence on April 06, 2022 initiating consultation with our office under Section 106 of the National Historic Preservation Act (36 CFR Part 800) for the above referenced undertaking.

As the above referenced permit revision does not propose additional surface disturbance outside of the currently approved area for disturbance, it is our opinion that a finding of no historic properties affected is appropriate for the proposed undertaking pursuant to 36 CFR 800.4(d)(1).

Should unidentified archaeological resources be discovered in the course of the project, work must be interrupted until the resources have been evaluated in terms of the National Register eligibility criteria (36 CFR 60.4) in consultation with our office pursuant to 36 CFR 800.13. In addition, should the consulted-upon scope of the work change please contact our office for continued consultation under Section 106 of the National Historic Preservation Act.

We request being involved in the consultation process with the local government, which as stipulated in 36 CFR 800.3 is required to be notified of the undertaking, and with other consulting parties. Additional information provided by the local government or consulting parties might cause our office to re-evaluate our eligibility and potential effect findings. Please note that our compliance letter does not end the 30-day review period provided to other consulting parties.

We thank you for the opportunity to comment. If we may be of further assistance, please contact Holly McKee-Huth, Cultural Resource Information/Section 106 Compliance at (303) 866-4670/holly.mckee@state.co.us.

Sincerely,

Dawn DiPrince
State Historic Preservation Officer
