**Acreage Release Request Application (AR-2)**  
**Release of 29.05 Acres**

Dear Mike Anderson:

On May 31, 2021 the Division of Reclamation, Mining and Safety considered your request for a permit acreage reduction. The Division found that reclamation had not been accomplished on these areas and denied this request. Not all of the requested areas are eligible for release at this time. All existing mine related features must remain permitted while in place. Revise request, then resubmit.

In accordance with Rule 1.4.11, any person who can demonstrate that they are directly and adversely affected or aggrieved by an action of the Office, may petition for a hearing before the Board on such action within thirty (30) days of the date of the Office decision, if the decision was a denial, without a hearing. Such petitions for a hearing shall state how the petitioner is directly and adversely affected or aggrieved by the Office's decision, and how the petitioner's interests are entitled to protection under the Act. The petitioner shall list and explain any issue the petitioner believes should be considered by the Board at the hearing on the matter. The petition for a hearing shall specify the application or file number assigned by the Office.
