Dear Mr. Rogers:

On March 30, 2022, the Division of Reclamation, Mining and Safety received your Surety Release Request 1 Application package for the Fassler Pit, File No. M-1988-032. Preliminary review of the information received determined that the following items need to be corrected before the Division can consider your application as being complete:

Application form

1. The name of the landowner listed on page 2 of the application lists Washington County as the landowner. The current landowner listed in the permit is James P. Fassler. Please update page 2 of the application with the correct landowner and re-submit it.

Your SL1 application will not be considered submitted/filed until the information listed above is received and found sufficient to begin the review. You have thirty (30) days from the date of this letter to submit all necessary documents that the DRMS needs for an application to be considered filed. If, at the end of the thirty day period, the application has not been determined to be filed with the DRMS, the DRMS may deny the application and terminate the application file.

The response to this Incompleteness Notice is due on or before **May 11, 2022.**

This letter shall not be interpreted to mean that there are no other completeness issues or technical deficiencies in your application. The DRMS will review your application to determine whether it is adequate to meet the requirements of the Act after submittal of all required items.
