**RE: Technical Revision #74 – Combination of RP-2/3/4 and RP-5A
Deserado Mine – Permit No. C-1981-018**

Dear Clayton:

Enclosed is a technical revision (TR-74) addressing the combination of refuse piles RP-2/3/4 and RP-5A. Details concerning the proposed revisions are enclosed.

The intent is to disturb and remove topsoil and subsoil from the small 5.83 acre area between RP-2/3/4 and RP-5A to more effectively place refuse material within the footprint of this complex.

If you have any further questions, please contact me at 970-675-4322.

Sincerely,

Kurtis Blunt
Sr. Environmental Engineer
