Re: Wells Pit, Permit No. M-2006-027, Errors with Annual Report Submitted in October 2021

Dear Mr. Wells:

Regarding the Annual Report that you submitted 9 October 2021, I want to point out some apparent errors to clarify the record and to help prevent errors in future annual reports.

- Number 8. – The value of 1.0 acres is listed in the report. It appears that the number should be larger, given the size of the permit area and the fact that most of the area is affected.
- Number 14. – Since the approval of TR-01 in 2012, the site has had a Weed Control Plan. In future Annual Reports, answer this question with that plan in mind and provide information on a map, as appropriate.
- Number 17. – It appears that “N/A” should be checked, not “No.”
- Number 18. – It appears that “N/A” should be checked, not “No.”

If you have any questions, please contact me at rob.zuber@state.co.us.

Sincerely,

Robert D. Zuber, P.E.
