

Interoffice Memorandum

To: Zach Trujillo
From: Rob Zuber *RZ*
Cc: Jason Musick and Michael Cunningham
Date: May 9, 2022
Subject: Two Rivers Application (M-2022-013),
Request for assistance with geotechnical review

I found the Two Rivers Sand, Gravel and Reservoir Project (Two Rivers) application complete on 18 April 2022, and I am performing the adequacy review for this new application.

I am requesting your assistance with the geotechnical portion of the application. Please let me know if you have the time to do this. If so, please focus on the Slope Stability Analyses of Exhibit S. Note that there is no need to review the other portion of Exhibit S (Permanent Man-made Structures) at this time

I would like to complete my preliminary adequacy by early June, so please submit a memorandum to me by June 2, 2022, if possible. If you need more time, please let me know. Also, do not hesitate to contact me with questions about the application. If necessary, I can put you in contact with the applicant or his consultant.
