RE: Box Canyon Exploration; DRMS File No. P-2007-048; CHM Ventures LLC- Inspection of Bond Forfeiture Site

---

On April 27, 2022 I inspected the Box Canyon Exploration site in San Miguel County. It does not appear that disturbance or any drilling activity was conducted at the 6 permitted drill sites. There was no evidence of disturbance, drill hole cuttings or drill holes. There may have been some tree removal but the drill hole locations appear to have naturally revegetated with native grasses. DH1 A, DH2, DH3, DH4, DH5 & DH6 were inspected. Below are some photos of the sites at the localities of the drill holes permitted with DRMS.
