RE: Cresson Project, Permit No. M-1980-244, Receipt of Required Corrective Actions

Ms. Boye:

On May 31, 2022, the Division of Reclamation, Mining and Safety (Division) received the corrective actions required for the two problems cited in the Division's inspection report signed on May 3, 2022. Therefore, the Division considers these two problems to be abated at this time. However, the Division may have additional questions regarding the corrective action submittal for problem #2 (pertaining to ore stacking) once the information submitted has been reviewed in more detail.
