Re: Flintstone Gravel Pit Inc., Pickering Family Pit, File No. M-2009-086, Second Incomplete Submittal of 112 Construction Materials Reclamation Permit Amendment Application (AM1) Package

Mr. Waldow:

On May 19, 2022, the Division of Reclamation, Mining and Safety (Division/DRMS/Office) received the incompleteness response for the 112 Construction Materials Reclamation Permit Amendment Application (AM1) package from Flintstone Gravel Pit Inc. for the Pickering Family Pit, File No. M-2009-086. A review of the information received determined the following additional information must be received before the Division can consider the amendment application as being submitted and technical review can begin:

6.4.1 Exhibit A - Legal Description

1. The Applicant states in Item #1 of Exhibit A, the mining area is located in the NE $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 32. On Page 2, Item #9 on the application form, the Applicant indicated the center of the area where the majority of the mining will occur as located in the NW $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 32, Township 2 North, and Range 76 West. The Division believes the location on the application form is accurate. Please review the location of the mine site and revised Exhibit A accordingly.

6.4.18 Exhibit R - Proof of Filing with County Clerk and Recorder

2. Please provide an affidavit or receipt indicating the date on which the revised amendment application information required to address this letter was placed with the Grand County Clerk and Recorder for public review, pursuant to Rule 1.6.2(1)(c).

The amendment application will not be considered submitted until the information listed above is received and found sufficient to begin our review. A decision date will be established 90 days from the date of receipt of all of the requested information. Additionally, if you have already published notice you will need to republish notice, after the Division considers the amendment application submitted. This notice must be published once a week for four (4) consecutive weeks, starting within ten (10) days of the date your amendment application is considered submitted. We will

notify you when you should initiate republication of your notice. The final date for receiving comments is the twentieth (20th) day after the fourth publication or the next regular business day.

You have sixty (60) days from the date of this letter to submit all necessary documents the Office needs for the amendment application to be considered filed. If, at the end of the sixty day period, the amendment application has not been determined to be filed with the Office, the Office shall deny the amendment application and terminate the amendment application file.

The response due date is July 4, 2022.

This letter shall not be construed to mean there are no other technical deficiencies in your amendment application. The Division will review your amendment application to determine whether it is adequate to meet the requirements of the Act after submittal of all required items.

Sincerely,

Peter S. Hays
Environmental Protection Specialist
