Eric:

Per our phone conversation of this afternoon in regards to lack of necessary information given to you, we would like to request an extension of time for the necessary paperwork to be filed with you.

We have contacted Jared Dains with Applegate Group and he indicated he will be happy to assist us in filing the technical revision paperwork as you also mentioned need to be done.

Thank you.

Thank you for the update. I will extend the deadline until June 30. I have attached the links to the 2 forms for you to use when you submit the revisions. These are also available from the DRMS website. As we discussed, please focus on addressing the issues identified in the inspection report from this March, and let me know if you have any further questions.
