OBSERVATIONS

This inspection was conducted as part of the Division of Reclamation, Mining and Safety's (Division) normal monitoring program. Jake Wilkinson, representing the Operator, was present during this inspection.

The site is located south and east of the Lucky Strike Mine (M-1982-020), approximately fifteen miles from Gunnison. The area is accessed by CR 42A. The Division currently holds a financial warranty amount of \$15,310 for this site. The Division has reviewed the reclamation costs, in order to ensure the financial warranty reflects the actual current cost of fulfilling the requirements of the Reclamation Plan, and determined that the current financial warranty amount is sufficient.

The NOI proposed exploration via trenching and drilling. No open boreholes or open trenches were noted during this inspection.

No problems or violations were noted during this inspection.
