Re: Klondike Basin Exploratory Drilling Project- COSLB Section 16, File No. P-2022-007, Notice of Deficiency

Dear Mr. Sweet,

On June 2, 2022 your application for the above listed Notice of Intent to Conduct Prospecting Operations was considered complete and filed. As part of the application process, one timely objection containing jurisdictional concerns was submitted. The jurisdictional concerns that require addressing are;

1. Concerns have been raised relating to the possible exposure of acid generating or radioactive materials in the drill cuttings. Please address whether or not Acid Generating or Radioactive materials is expected to be encountered, supported by documentation or evidence if available. Please also include a contingency plan to handle any potentially radioactive or acid generating materials should they be encountered.

The current Decision Date for your application is Thursday June 30, 2022. Please submit your responses to the above listed items no later than Thursday June 23, 2021 to allow sufficient time for review. If more time is required for your response please submit a Decision Date Extension Request, in writing, to the Division's Denver Office prior to the Decision Date.

If you have any questions or concerns please feel free to contact me at the Division's Grand Junction Field Office at 101 South 3rd Street, suite 301, Grand Junction, CO 81501, by phone at 303-866-3567 Ext. 8187 or by email at lucas.west@state.co.us.

Sincerely,

Lucas J. West
Environmental Protection Specialist
