Denver, CO 80203

RE: Preliminary Adequacy Review, Technical Revision (TR-1); Pueblo County Aggregate Project (PCAP), Permit No. M-2016-009

Mr. Lennberg,

Thank you for taking the time to review the Technical Revision Application for this site. The attached mapping shows the requested, updated order of phases. There will be no processing onsite, as all material is hauled to the State Pit M-1900-112 for processing. The second map attached shows drone photos of the site currently. The drone photo shows the current mining area that has started in what is now Phase 2. Mining activities started on April 1, 2022. The new haul road alignments are depicted on the first map attached and are altered slightly to decrease onsite disturbance.

If further information is needed, please feel free to contact me directly.

Thank you,
