As a concerned Weld County resident ..please do all you can to stop this!!  
I love to watch the eagles in this area!

A sand and gravel mining and processing plant is being proposed in Weld County along the Big Thompson River.

Located at 54th St. Road and CR396. This area is directly across from the Dos Rios neighborhood and immediately next to the Big Thompson River. There are bald eagle nests on the proposed land and a conservation area next to the proposed project.

The significant impact of noise, dust, dirt, large trucks on the residential roads and disruption to wildlife would be devastating

Good morning.

Thank you for your interest in the Two Rivers Project. Please see my attached letter.

Rob
