**Re: Incompleteness Notice, 110c Construction Materials New Permit Application
Stoddard Pit, Permit No. M-2022-028**

Mr. Stoddard:

On June 2, 2022, the Division of Reclamation, Mining and Safety (Division/DRMS) received the 110 Construction Materials New Permit Application for the Stoddard Pit, File No. M-2022-028. Preliminary review of this application determined the following items must be received before the Division can consider the application as being submitted/filed and the technical review can begin. Please respond to this Incompleteness Notice with the requested additional/updated information on permit application replacement pages and summarize each response in a cover letter titled "Incompleteness Response; M-2022-028".

APPLICATION FORM:

1. Responsibilities. Question #10, on page five, is initialed, the question does not require initials. Please indicate "N/A" for the question.
2. Certification. On page 7, the name of the Applicant/Operator needs to match the name on page 1 of the Application page, in this case it should be Stoddard Construction, LLC not John Stoddard. The notary signature is incomplete. The name of the operator needs to match the Applicant/Operator name above not the name of the operation (Stoddard Pit).

EXHIBIT R – Proof of Filing with County Clerk and Recorder (Rule 6.4.18):

3. Pursuant to Rule 1.6.2(2), please demonstrate that the Applicant's response to these incompleteness issues have been placed with the application materials previously placed with the County Clerks or Recorders Offices, and made available for public review.

Your new permit application will not be considered filed until the information listed above is received and found sufficient to begin our review. A decision date will be established 30 days from the date of receipt and acceptance of all of the requested information. Additionally, if you have already published notice you will need to republish notice, but only after the Division considers the application complete and filed; the Division will notify you when you should initiate publication of your notice. This notice must

be published once, starting ten (10) days of the date your application is considered filed. The final date for receiving comments is the tenth (10th) day after the publication or the next regular business day.

Pursuant to Rule 1.4.1(8), you have sixty (60) days from the date of this letter to submit all necessary documents that the Division needs for an application to be considered filed. If, at the end of the sixty day period, the application has not been determined to be filed with the Division, the Division may deny the application and terminate the application file. Should additional time be required to submit all the necessary documents an extension request can be submitted in writing for the Division's consideration.

The response to this Incompleteness Notice is due on or before August 9, 2022.

This letter shall not be interpreted to mean that there are no other completeness issues or technical deficiencies in your application. The Division will review your application to determine whether it is adequate to meet the requirements of the Act after submittal of all required items.

If you need additional information or have any questions, please contact me at Division of Reclamation, Mining and Safety, 1313 Sherman Street, Room 215, Denver, CO 80203, by telephone at **303-866-3567 x8114**, or by email at patrick.lennberg@state.co.us.

Sincerely,

Patrick Lennberg
