Mr. Zuber,

It has ben brought to my attention that the Raptor Materials, LLC Two Rivers Sand, Gravel and Reservoir Project is being put in just a short distance from my home. The public notice for this project was less than adequate, but that was most likely the purpose so they would not get push back from all the home owners in the area. However, that is just my intent here, to push back. I object to this project for the following reasons. It is way too close to a residential community. The noise, dust, and increased traffic are not suitable for a residential area. Not to mention the impact it will have on the wildlife in the area and the water in the river. This damage will be irreversible. We moved to this area for the quiet, nature filled environment it provides. It would deeply saddened me if this project is approved. Please note this letter as a strong objection to the project.
