Subject: BUILDING OF GRAVEL PIT ON 396 AND 54TH ST RD.

To: <drms_info@state.co.us>

To Whom It May Concern:

>>>>

>>>> I am writing this letter in regards to the possible building and construction of a Gravel Pit down the road from my home. I am a native of Colorado and was thrilled when my girlfriend and I finally found the land and home that fit our exact needs. The Dos Rios subdivision is a quaint, extremely quiet neighborhood and with the proposed gravel pit this would be lost forever!!

>>>

>>>> Currently, the traffic and noise are very minimal. We do have an amazing array of wildlife out here. Deer, turkey, eagles, hawks, you name it. They most recently built a Bird and Wildlife Sanctuary. The proposed gravel pit would be right across the road from this beautiful and beneficial sanctuary. I would think all the noise and pollution from the proposed gravel pit would just scare all the wildlife off and all would be lost. Also, a few other neighbors and myself are very worried about the small bridge on the road and if it could hold the weight and constant back and forth of the gravel trucks.

>>>

>>>> Which brings up another point, the traffic. I know some of us moved out here to get away from the hustle and bustle of city life and it is hard to see the 'city life' starting to make its way to us. There is a 'triangle' style stop/yield sign up the road that is not the safest currently and I could not imagine what it would be like, if you added gravel trucks. With gravel

trucks, would come more pollution.. in the air and on the roads. There is so much more about this project that would negatively affect our neighborhood and all of the wild animals and birds. I hope you all will read through this and really reconsider. This is our HOME.

>>>>

>>>> Please feel free to reach out with any questions or comments.

All,

This comment is in regards to the Two Rivers Sand, Gravel and Reservoir Project that Rob is currently reviewing. Rob will get this indexed into the public file.

Thanks,

Michael Cunningham
