Dear Mr. Rob Zuber,

I am writing to you today to convey my concerns and objections to this horrendous project .

The neighborhood was not made aware of the magnitude of this project! It was very underhanded ! Very Small signs placed in random places with false information is very deceitful and I can see why they did this given the scope of this horrible project!!

No one in this neighborhood would Ever want this!! We have lived here 22 years and this is our forever home . The peace and quiet, the wildlife and the beautiful scenery of the river is what we cherish.

There are Bald Eagles that nest here every year and they are federally protected! There are deer , turkeys and Bobcats that have their young here. There are so many animals that would be affected by this atrocious project!

Not to mention the affect it would have on us! The noise 24/7. The dust and God knows what else that will blow into our lungs and our homes! Many people have respiratory issues and I being one have Asthma. Its hard enough to breath when we have wildfire smoke and I can't imagine the dust and silica sand (which is toxic) all day long.

We all have the right to a quality of life and this project is about to infringe on it! Would you like this in your back yard? I THINK NOT!

Regards,

Laurie Lareau

26 Dos Rios
