Re: Pit No. 2 (M-1983-106)

Dear Ms. Brossman.

The Division received your response to a Compliance Problem cited in the Division's report from the inspection that was conducted on November 9, 2021. The status of the corrective action in regard to the cited problem is as followed.

**Compliance Problem: The topsoil stockpiles do not have established vegetation on them and are therefore susceptible to erosion.**

This problem is considered to be resolved as a result of photographs of seeding activities and the seed tag sent to the division from Cheyenne County on June 15, 2022.
