Dear Jodi Schreiber:

On June 16, 2022, the Division of Reclamation, Mining and Safety received your 111 Construction Materials Reclamation Permit Application package for the Cheyenne County State Land Board Pit, File No. M-2022-030. Preliminary review of the information received determined that the following additional information must be received before the Division can consider your application as being submitted and technical review can begin.

1. Exhibit K did not contain a signed government contract as required by Rule 6.3.11. Please submit the CDOT contract to the Division.

Your application will not be considered submitted until all the information listed above is received and found sufficient to begin our review.

You have sixty (60) days from the above date to submit all necessary documents that the Office needs for an application to be considered filed. If, at the end of the sixty day period, the application has not been determined to be filed with the Office, the Office may deny the application and terminate the application file.

This letter shall not be construed to mean that there are no other technical deficiencies in your application. The Division will review your application to determine whether it is adequate to meet the requirements of the Act after submittal of all required items.
