Hello Sarah and Tom,

I am noticing that the proposed decision date for King I & II Mine RN8 is quickly approaching on June 28, 2022. The Division sent a short adequacy letter to GCC Energy, LLC on May 31, 2022. We have not yet received adequacy responses from GCC Energy. The Division will need adequate time to review GCC's responses, and complete a findings document. Please request an extension of the proposed decision date to allow for the Division's review and findings.

Thank you,
