Hi Mr. Zuber,

I am reaching out on behalf of my neighbors and community to object to the Two Rivers Sand, Gravel and Reservoir project that is proposed outside of our neighborhood. We live in Dos Rios Estates, and the quiet of the neighborhood and surrounding area is priceless. The proposed sand and gravel mine will bring unwanted traffic, dust and noise to our homes and will disrupt the wildlife in our area. There are many deer and wild turkeys and bald eagles nearby, and this project will cause significant impact on their habitats. If I can share my objections with any other people or entities, I am happy to do so. Thank you!

Melissa and Dustin DeBusk
