Hello, Mr. Gilmore -

This is not sufficient. You need to submit a Technical Revision (TR) for the Reclamation Plan for the Bento Dawson Gravel Pit (M-1983-209).

Please request another extension for this corrective action. I think another month is appropriate.

I am going to send another email in about 10 minutes with details on TRs and Reclamation Plan requirements, but please send the extension request soon.

Thanks,
Rob

Hi, Mr. Gilmore -

Please request another extension for your corrective actions. It depends on your schedule, but I think late July would be fine.

Rob
