**Re: Buster Quarries, Permit M-1981-107, Corrective Actions Extension**

Dear Mr. Buster:

During my inspection in February 2022, I identified two problems that require corrective actions. Regarding both (the water rights issue with water in the pits and the update of the reclamation plan to address the waste rock area), the Division is extending the decision due date to August 5, 2022.

If you have any questions, please contact me at [Rob.Zuber@state.co.us](mailto:Rob.Zuber@state.co.us) or by calling (720) 601-2276.

Thank you,

Robert D. Zuber, P.E.  
Environmental Protection Specialist
