Re: 2nd Quarter 2022 Surface Subsidence Inspections
2nd Quarter 2022 Huntington Ditch Inspections

Ms. Binns:

Mike and Marc Crawford, of the Crawford Ranch property informed us that they continue to monitor subsidence cracks on their property. No new cracks have been located this quarter. They have informed us that all cracks on the Crawford Ranch property are minor; they will inform us if they feel action is required.

No subsidence issues have been noticed in the mined out areas west of Pine Gulch on the Huntington ranch property. Dan Huntington has not mentioned any subsidence related issues on other areas of his property.

Please call Jordan McCourt at (970) 385-4528 x 6531 if you have any questions or comments.

Sincerely,

A handwritten signature in black ink that reads "Jordan McCourt". The script is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.
