Hello Sarah, Tom and Chris,

The proposed decision date for King I & II Mine RN8 is coming up next week, July 28, 2022. GCC Energy has not submitted a response to the Division's May 31, 2022 preliminary adequacy review (PAR). The Division will need adequate time to review GCC's response once they are submitted. As such, please request an extension to the proposed decision date, to allow the Division time to review GCC's responses once GCC has submitted them.

Thank you,

Janet Binns
