**SUBJECT: Deserado Mine, C-1981-018, Technical Revision No. 74
Combine Refuse Piles RP-2/3/4 and RP-5a**

Hi Rob,

The Deserado Mine has submitted a technical revision to combine the RP-2/3/4 and RP-5a refuse piles. I would like to request your assistance in reviewing the hydrologic portions of the application. Illustration #62 contains the new hydrology and sedimentation analysis for the combined refuse pile. The current Decision Date is set for August 2, 2022; however, the decision date is likely going to be extended. Please feel free to reach out if you have any questions or concerns.

Please feel free to contact me if you have any questions or concerns.

Sincerely,
Clayton
