### **RE: Hopemore Mine Annual Report | Weed Control**

We have conducted our weed control in accordance with our Weed Control Plan at the Hopemore Mine during the last year. Toad flax and Canadian Thistle have been present in the last year, we conducted a thorough walk through of the property on June 15, 2022 removing all weeds. We continue maintenance (removal) of throughout the property as needed. Please see the attached map for location of weeds on property.
