Compliance Items Completed

Dear Mr. Hays,

The compliance items in the June 26, 2021 agreement between Salisbury Gladstone LLC (SG) and the Stanley Mine have been completed to the best of SG's ability. Photo documentation is provided herein.

1. The disturbance in the vicinity of the settling ponds is returned to original conditions.
2. Branches and debris are removed from the Stanley property.
3. The 8-ft. fence is constructed.
4. SG has reached out to Stanley regarding the access agreement. Stanley has not responded to date but SG will continue to pursue an agreement. The access will not be used until appropriate measures have been taken to obtain the access.

Please feel free to contact me directly with any questions.

Respectfully submitted
