Hello, Bernard -

Can you give me a status report on the corrective actions, namely dealing with the impounded water and the reclamation plan? The current due date is August 5th. We may be able to extend the date again, but we want to see if you are making any progress.

Thanks,
Rob

Hi Rob,

Yes we are making progress. We have the pumps so pumping the water out is not a problem at all.
The problem for us is securing another source of water.

Yes, we would like an extension.
