**Re: B&G Stone, Permit M-1987-092, Receipt of Corrective Action Documentation**

Dear Mr. Vasquez:

The Division received your response to a Compliance Problem cited in the Division's report from the inspection that was conducted on February 15, 2022. The status of the corrective action in regard to the cited problem is as follows:

**Compliance Problem, Hydrologic Balance:** The site is improperly impounding surface runoff or exposing groundwater without approval from the Division of Water Resources. This problem is considered to be resolved as a result of a photograph and letter from Raul Vasquez, sent via email on August 3, 2022. The photograph shows that the pit is empty of water, and the letter states a commitment to continue to keep the pit dry.

If you have any questions, please contact me at [Rob.Zuber@state.co.us](mailto:Rob.Zuber@state.co.us) or by calling (720) 601-2276.

Thank you,

Robert D. Zuber, P.E.  
Environmental Protection Specialist
