**RE: SPK-2019-00889, Notice of Yule Creek Restoration Construction, Special Condition 3**

Mr. Wilson:

On behalf of Colorado Stone Quarries, Inc. (CSQ), please allow this letter to serve as notice of CSQ's plan to begin construction in the eastern alignment of Yule Creek within their DRMS permit area from August 1 through September 15, 2022. All work will be completed by CSQ and their ecological consultants Ecological Resource Consultants to implement the March 22, 2021 dated "Yule Creek Mitigation Plans".

This notice is required by Special Condition 3 of CSQ's February 2022 dated and issued Individual Permit by the U.S. Army Corps of Engineers. While Special Condition 3 indicates notice "within 7 days following initiation of these mitigation activities", CSQ would like to provide advance notice as the start date of August 1, 2022 is formally planned as the first day creek construction will begin. Following completion of activities within waters of the U.S., CSQ will notice the Corps within 7 days.

Please do not hesitate to contact me with questions or concerns. CSQ appreciates the Corps continued cooperation and guidance in regard to CSQ's Individual Permit.

Regards,

Katie Todt
