**RE: Cresson Project, Permit No. M-1980-244, Technical Revision Approval (TR-129)**

Ms. Boye:

On August 5, 2022, the Division of Reclamation, Mining and Safety (Division) approved the Technical Revision application (TR-129) submitted to our office on December 2, 2021, addressing the following:

*Identification of Point of Compliance wells*

The terms of TR-129 approved by the Division are hereby incorporated into Permit No. M-1980-244. All other conditions and requirements of Permit No. M-1980-244 remain in full force and effect.

The Division's approval of TR-129 does not include an approval of the Numeric Protection Levels (NPLs) proposed in the application. As agreed, the operator will submit a subsequent Technical Revision that proposes NPLs for each drainage based on a statistical analysis of site data.

The Division has reviewed the change associated with TR-129 for impacts to the financial warranty and determined that this change does not require an increase to the current reclamation liability. Therefore, the surplus warranty remains at \$815,219.95, last adjusted with the approval of TR-128 on October 14, 2021.

If you have any questions, you may contact me by telephone at (303) 866-3567, ext. 8129, or by email at [amy.eschberger@state.co.us](mailto:amy.eschberger@state.co.us).

Sincerely,

Amy Eschberger  
Environmental Protection Specialist
