RE: Dawson Gold Project - File No. P-2013-002
Acreage Release Request Application (AR-1)
Acreage Reduction Request

Dear David Felderhof:

The Division of Reclamation, Mining and Safety received your Mineral Prospecting Acreage Release Request application for the Dawson Gold Project, which is located in Fremont County. Preliminary review of the information received determined that the following additional information must be received before the Division can consider your application complete and technical review can begin.

Pursuant to Rule 4.16.2, the request is missing:

- (c) a narrative describing site grading, topsoil replacement, successful revegetation and other stabilization activities, and
- (d) suitable photographs of the reclaimed area.

Your application is incomplete for the purposes of filing as of August 8, 2022. Please submit your responses to the above listed item(s) no later than September 7, 2022.

This letter shall not be construed to mean that there are no other technical deficiencies in your application. The Division will review your application to determine whether it is adequate to meet the requirements of the Act after submittal of all required items.

If you have any questions, please contact me by telephone at 303-866-3567 x 8169, or by email at tim.cazier@state.co.us.

Sincerely,

Timothy A. Cazier, P.E.
Environmental Protection Specialist
