Hi Jared,

We greatly appreciate your following up with us on this matter in response to our June 2022 letter. We understand that the project was completed prior to completion of the compliance process. While we are currently outside the regulations, we understand that you are seeking to provide us information on historic properties that sat or continue to sit in the project location as well as an assessment of the effects that the work had on historic properties. Based on the information provided in our call this morning and the documentation provided, it appears that the activities that were completed did not adversely affect 5LA.7112. We thank you for providing this information and following up regarding this matter.

Please let us know if you would like to discuss this further or if you have any additional questions.

Best,

Hello Matthew,

I have consulted with OSMRE and NECC has responded with some revised information pertaining to TR76. Based on OSMRE's recommendation, I would like to request additional consultation regarding this revision. Please see the attached letter and the enclosed material. Please let me know if you have any questions or concerns.

Thank you,

Jared
