*RE: Loloff Construction, Inc. – Loloff Pit – Withdrawal of Full Release of Entire Permitted Area and  
Surety Reduction Request  
File No. M-1985-112*

Dear Mr. Zuber,

Loloff Construction, Inc. is withdrawing the the full release of the entire permitted area and a reduction to the current bond amount for the Loloff Mine File No. M-1985-112. Instead they will be submitting a surety reduction only under separate cover as the revegetation is not progressing like it was in late May and will need more time to become established.

Loloff Construction, Inc. appreciates your consideration of this and looks forward to your response.

Please feel free to contact me with any questions or comments.

Sincerely,

J.C. York, P.E.
