RE: McClane Canyon Mine, C-1980-004
Minor Revision No. 64 Preliminary Adequacy Review Letter

Dear Mr. Stover,

The Colorado Division of Reclamation, Mining and Safety (the Division) has received and reviewed ARC McClane Canyon, LLC's (AMC) Minor Revision No. 64 Application. The revision requested to update the Inspection and Permitting Contact for the McClane Canyon Mine. The revision also provided updated pages for Exhibit E, which contains the original CO0038342 Water Quality Control Division permit and the letter approving the water quality permit to be under administrative extension. The Division has completed the review of the application and has the following comments:

1. Please ensure that any other state and local agencies are notified of the change in the permitting and inspection contact for the McClane Canyon Mine.
2. Please provide the Division with and updated permit from the Water Quality Control Commission when the permit is updated and renewed.

The Division has no further comments or questions. This concludes the Division's review of the Minor Revision No. 64 Application for the McClane Canyon Mine. If you have any questions, please contact me at (303)-866-3567 x8185 or at clayton.wein@state.co.us.

Sincerely,

Clayton Wein
Environmental Protection Specialist
