

SECTION 2.03 LEGAL, FINANCIAL, COMPLIANCE AND RELATED INFORMATION

2.03.1 OBJECTIVES

The purpose of this section is to ensure that the DRMS receives all relevant information required on surface ownership, coal ownership and the completed history and status of New Elk Coal Company LLC (NECC) for continued coal mining operations at the New Elk Mine. This information is provided in the following sections to answer each specific question with regard to the operation.

2.03.2 RESPONSIBILITIES

A written description is included in this permit application under which NECC will continue mining operations at the New Elk Mine. The following sections provide the required information for conducting coal mining in Colorado.

2.03.3 FORMAT AND SUPPLEMENTAL INFORMATION

Information which has been utilized by prior permittees to support the baseline data and other operating data is included in the text and presented in the Exhibits portion of this application. Data which has been taken from various reports, analysis, and other reference material is shown on the Maps and within the application for which this information was developed.

Numerous analyses of the soils, overburden, coal, surface and ground water, vegetation, and wildlife have been completed by CF&I, Wyoming Fuels, Basin Resources, and NECC. Analytical work within each of these areas was also conducted. Laboratory procedures for testing the overburden, soils and water comply with standard EPA and USGS procedures for the various required constituent analyses. Organizations responsible for collection and analysis of this information are compiled in **Table 1**.

This permit application contains text addressing the regulations of the Colorado Mined Land Reclamation Board for Coal Mining with narrative supported by appropriate exhibits and maps. NECC believes that the information within the application is true and correct to the best of its knowledge.

Section 2.03.4(8)

The MSHA identification numbers are Surface 05-04461, and Bates Underground Mine 05-04975.

Section 2.03.4(9)

There are no outstanding interests in lands, options, or pending bids on interest held or made by NECC for lands which, are contiguous to the area covered by the permit.

2.03.5 COMPLIANCE INFORMATION

Neither NECC nor any of its affiliates or persons controlled by or under common control with it, has had a mining permit for surface coal mining operations suspended or revoked within the last five years. Nor have any such entities forfeited a mining bond or similar security deposited in lieu of a bond in connection with any surface mining operations.

NECC has not received any notices of violation within the last five years.

MSHA violations are not listed. A compilation of violation history can be obtained by interested parties by contacting the Mine Office.

2.03.6 RIGHT OF ENTRY AND OPERATION INFORMATION

NECC's right to enter and conduct surface coal mining operations is not subject to any pending litigation. NECC and its lessors own the surface and coal within the permit area. **Map 1** shows the surface ownership in and adjacent to the permit area.

The metes and bounds description of the permit boundary for PR-05 follows:

Beginning at Pt. 109 of the Terry Surveying Wash Plant Boundary Survey dated May 15, 1997; as filed with the Las Animas County Clerk and Recorder's Office in Book 964, Page 914, and correction in Book 966, Page 578; thence, traversing around the permit boundary for the following 74 courses;

The right of entry and operation lease information documents that are contained as part of **Exhibit 34** contain the following:

- May 2008 – Quitclaim Deed from Trinidad Railway Holding, LLC and New Elk Coal Company
- July 11, 2012 – Application for Temporary Special Use Agreement on CDOW Lands
- March 14, 2008 – Coal mining lease information between the State of Colorado acting by and through the Department of Natural Resources, for use and benefit of the Division of Wildlife and Wildlife Commission and NECC
- June 1, 1997 – Quitclaim Deed from North Central Energy, Inc and Picketwire Processing, LLC
- Details of **Exhibit 34** include that the mineable coal within the permit boundary is owned by the State of Colorado acting by and through the Department of Natural Resources for the use and benefit of the Division of Parks and Wildlife.

NECC signed a quit clam deed in May 2008 with Trinidad Holding, LLC. The purpose of doing this was to utilize the rail bed (TR-76) as a haul road which is approximately 2.7 miles in length and will be constructed on the existing rail bed and no new disturbance

outside of the existing rail bed will be necessary for the construction and operation of the road. The road will be a maximum of 15 feet wide and have the necessary berms as required by MSHA. The disturbance for this haul road will be 4.91 acres. Map 11-5 shows the location of the road.

NECC signed a temporary use agreement with the Colorado Division of Parks and Wildlife in order to be able to install a culvert necessary to relieve flow from the upper diversion ditch for DWDA #3.

NECC leases the Jansen Loadout facility for coal shipments. Right of entry information for the loadout site can be found in **Exhibit 40**.

There are no purchases of record under real estate contract for property overlying areas that NECC's mining activities will affect during the next five years.

The New Elk Mine Workings are owned by NECC and **Map 2** illustrates the coal ownership.

2.03.7 RELATIONSHIP TO AREAS DESIGNATED UNSUITABLE FOR MINING

The proposed permit area is not located within an area designated unsuitable for surface coal mining operations or under study for such designation. NECC does not intend to conduct surface mining activities or to conduct or locate surface operations or facilities within 300 feet of an occupied dwelling.

2.03.8 PERMIT TERM INFORMATION

- (1) Does not apply
- (2) During the next five year permit term, beginning in February 2019 and ending in February 2024, the operator conducting mining operations as approved under Rule 2.05.4 of this application. The mine anticipates affecting less than 20 additional acres over the next five years, although accurate estimates are not possible given mining and production uncertainties. All disturbances, whether anticipated or otherwise will be approved prior to undertaking said activities. Underground workings and approved mine plan maps are available as part of this application and change based on operational needs and as approved.
- (3) Does not apply as the mine operates under successive 5 year mining permits. The projection as calculated using approved production levels at this time is a 20 to 30 year mine life. Accurate estimates are not known and cannot be accurately estimated due to market variability.

2.03.9 PERSONAL INJURY AND PROPERTY DAMAGE INSURANCE INFORMATION

NECC has been issued a certificate of insurance for general liability. This certificate has been placed in **Exhibit 3**.

2.03.10 IDENTIFICATION OF OTHER LICENSES AND PERMITS

Numerous other licenses and permits will be obtained for the operation of the New Elk Mine. **Table 2** shows the listing of permits that NECC needs for the project.

2.03.11 IDENTIFICATION OF LOCATION OF PUBLIC OFFICE FOR FILING APPLICATION

A copy of any permit of revision application materials that are required to be available during the specific review time periods will be made available for public inspection in the Las Animas County Clerk/Recorder's office located at the County Courthouse, 200 East 1st Street, Room 205, Trinidad, Colorado.

2.03.12 NEWSPAPER ADVERTISEMENT AND PROOF OF PUBLICATION

The Chronicle-News will be the location of any public notice of any proposed revision that requires a notice be published. Proof of publication will be provided to the Division when received for those public notices initiated by NECC.
